

For the professionals that demand low noise, ergonomics, long-life and reliable performance

If working in applications with M-Class hazardous dust, our series of M-class certified vacuum cleaners are the perfect solution. Choose from different container sizes and other features which enhance your working efficiency like filter cleaning system, automatic start/stop for power tools and AntiStatic hose system. The build-in FlowSensor and acoustic warning signal monitors air speed in the suction hose to make sure that it does go below the minimum 20 m/s. A safe and easy-to-use solution for demanding applications.

ATTIX 761 is a mid-size safety vacuum cleaner with high performance and high mobility. Automatic XtremeClean filter system keeps the filter clean to increase efficiency and reduce downtime. AntiStatic hose system and Automatic Start/Stop is the perfect feature for Tradesmen who work with power tools. It features a 70 liter stainless steel container, which can be emptied by tilting or lifting off of the robust steel frame. Truly an Industrial Class performer.

In all models, your operating costs are minimized with the washable PET fleece filter elements, and user-friendliness reaches an all-time high with the low working sound level, which lets you work when others are nearby without disturbing them. If working with M-Class hazardous dust, our series of M-Class certified vacuum cleaners is the perfect Wet&Dry solution.

Picture shown may not represent model quoted

- Approved for work with M-Class hazardous dust
- Low working sound level - SilentPower - high performance that is seen, but not heard
- MultiFit accessory system for the ultimate in task flexibility
- Washable PET fleece filter with Minimum 99.9% filtration efficiency
- Accessory storage and tool deposit
